Assembly Requirements	The tabletop, support plate, column, and base must be assembled using the screws provided, following the instructions in the packaging.
Material	The Florence Column table frames are crafted in Europe by highly skilled craftsmen. They are constructed from laser-cut steel plates and tubes, secured with stainless steel bolts and nuts. The surface is finished with a durable black powder coating.
Cleaning & Care	Use a soft, dry cloth to remove the dust from the table. For deeper cleaning, dampen a cloth gently wipe the surface. If needed, use a mild detergent. Always test a small area first to ensure it does not damage the finish. After cleaning, use a dry cloth to wipe away moisture, since moisture can damage the material. Pay extra attention to the marble components while cleaning - Marble is a natural material, it is sensitive to liquids. If the liquid is not removed immediately, spilled liquids can leave a permanent stain on the table top.
